In reponse to telephonic communications from Applicants' representative Rabindranath Dutta, Reg. No., 51010, indicating that the Examiner had missed putting his initials next to the non-patent literature document by D. Anderson et. al., in Form 1449 submitted by the Applicants, both Scott Baderman, the supervisory patent examiner, and Paul F. Contino, the patent Examiner informed the Appicants telephonically on 4/11/2008 that the error on the part of USPTO would be corrected by the Examiner.

Subsequently, on 4/15/2008 the Examiner appears to have put his initials next to the non-patent literature document by D. Anderson et. al., in Form 1449. Applicants have noted that the properly initialed form 1449 appears in PAIR.
